

ANTARCTICA IN A DAY

The world's most unique scenic flight

EXPERIENCE INCREDIBLE ANTARCTICA

Over 25 years experience

Welcome to Antarctica – the world’s last great wilderness. We’ve been exploring Antarctica by air since 1994 – that’s over 150 flights and 27 years pioneering a land that remains almost entirely undiscovered. Aboard a cruise ship you would only touch the edge of the coast. Aboard our privately chartered plane, you will soar over a continent that escapes the boundaries of perception. We board the 787 Dreamliner, which affords us optimal views to the vast white wilderness, thanks to windows larger than those on a similar sized aircraft. The lower cabin altitude also creates a more comfortable environment in which to enjoy your flight.

Departing from most capital cities

We fly during the Antarctic summer from November to February, round trip from Sydney, Melbourne, Brisbane, Perth, Adelaide, Hobart and Canberra.

What to expect on board

Become one of the privileged few to witness the desolate beauty of this untamed polar desert. Aboard our privately chartered state-of-the-art 787 Dreamliner, you will experience unparalleled Antarctic viewing over the vast and various landscapes of this wild continent. And with 19 planned routes to match the day’s weather conditions, no two flights are ever the same, each with a duration between 12 and 14 hours. Enjoy the bespoke full Qantas service – including premium drinks, delicious meals and talks from Antarctic expeditioners. With up to 4 hours over the ice and the remaining time to enjoy on board – it’s an experience like no other.

Health and Safety

To ensure the health and safety of our passengers and crew during this extraordinary time all passengers and crew onboard Antarctica Flights must be fully vaccinated. Additional measures will also be implemented throughout your Antarctica Flights experience. Learn more at antarcticaflights.com.au/safety

“

Here and there are cracks across the barren landscape like the fine shatter-line on a broken mirror. It's an eerie, utterly uninhabited world above which we spend hours of compelling and companionable cruising.

A new chapter for Antarctica Flights

Every Antarctica Flight is carbon neutral. We are proud to work with carbon solutions provider Carbon Neutral in offsetting the carbon emissions from every flight. Through certified carbon credits purchased under the Gold Standard, we are contributing to projects that not only provide positive benefits to the climate, but also achieve social and economic 'co-benefits'. We're committed to protecting our planet, and it's our mission to leave Antarctica's pristine landscape the way we found it.

Inspired by their Antarctic experience, many of our guests go on to become environmental ambassadors. Recognising the immediacy of Antarctica's vulnerability to climate change, their generosity aids in furthering research and education, in order to protect this precious and vital part of our world.

NATURE'S MASTERPIECE

It's over 100 years since Ernest Shackleton made his pioneering expedition across Antarctica. Knowledge of the driest, coldest and windiest continent on Earth has come a long way since then...

Antarctica facts

- > Antarctica is larger than Europe and almost twice as big as Australia, but only 2% is ice-free
- > It's the world's driest continent, with an annual snowfall equating to just 200 millimetres of water. That's even less than the annual rainfall of the world's hot deserts!
- > The coldest temperature ever recorded on Earth was in Antarctica: -89.6°C at Vostok Station in July 1983
- > Antarctica holds 70% of the planet's fresh water and 90% of the planet's freshwater ice. The average ice sheet is a whopping 1.4 kilometres thick!
- > During winter, the pack-ice zone in the Southern Ocean almost doubles in size, extending to between 19 and 22 million square kilometres
- > Australia has three permanent bases in the wilderness: Mawson (1954), Davis (1957) and Casey (1969). Don't forget to give them a wave if we fly over!
